

# Night Sky Event

## Saturday, January 17 6pm-9pm

**FREE event**  
**OPEN TO THE PUBLIC**

Held at the outdoors at the  
**Lebanon Historical Society Museum**  
856 Trumbull Hwy Lebanon

Sponsored  
by The Last  
Green Valley

**Warm up inside the museum**  
**with hot chocolate and treats**

Join Lead Night Sky Rangers Kim and Geoff McLean for the Jupiter Jubilee  
at the Lebanon Historical Society.

This weekend Jupiter will at its brightest and come its closest to earth for 2026.

We'll check out the 4 Galilean Moons and perhaps  
the Great Red Spot. Saturn will also be up in the early evening.  
We'll also look for Neptune and Uranus and some deep sky objects  
as it will be a moonless night.

The fun begins at 6 pm and lasts until we get too cold or 9 pm,  
whichever comes first.

Be sure to dress warmly - hats, mittens, warm coats  
- and don't forget warm socks and shoes.

Bring your astronomical questions and we will try and answer them.

We'll have a space inside the historical society for  
bathroom use and to help you warm up.  
There will be hot cocoa and some inside activities as well.

This event is for all ages and is free.

Please do not bring any pets.
